Grand Old House

Grand Old House, a legend of the Island, this former plantation house established in 1908 retains the charm of the past, catering to the present and the future. With its panoramic waterfront seaside terrace, colonial-style indoor dining, six private rooms serving local and international flavor, an award-winning Wine list, and live music, it is a must for romantic dinners, fine dining, spectacular weddings, and business events.

Challenges

Grand Old House's main concern during their initial contact was the lack of recognition as a premier fine dining and waterfront establishment in the Cayman Islands. This could be due to a decrease in website traffic and lead generation, resulting in a higher bounce rate.

How We Helped?

We implemented on-page, off-page, and content marketing strategies to optimize the website's content and structure, build high-quality backlinks, and create valuable content to improve its online visibility and achieve marketing goals. This led to increased website authority, improved search engine rankings, and greater brand awareness.

Outdoor Marketing

We have a wealth of experience in outdoor marketing. Our portfolio includes a diverse range of projects for clients, such as billboards, bus stop posters, car stickers, digital ads, shop signs, and much more.

Our team of experts knows how to capture the attention of your target audience and make your message stand out. We understand that outdoor advertising requires a different approach than other forms of marketing, and we tailor our strategies accordingly. From choosing the right location to designing eye-catching graphics, we take care of every detail to ensure your campaign is a success.

We also believe in using sustainable practices in our outdoor marketing efforts. Our team is committed to minimizing the environmental impact of our work by using eco-friendly materials and minimizing waste. We believe that responsible marketing can be both effective and environmentally conscious. Check some of our examples on this slide.

Signage

We have extensive experience working on various signage requirements for our customers.

Our team of experts understand the importance of effective and eye-catching signage for businesses of all types. From storefront signs to vehicle wraps, we have the knowledge and skills to create custom signage solutions that will help your business stand out from the competition.

We use the latest technology and materials to ensure that our signage is of the highest quality and durability, so you can be confident that your investment will last for years to come. We work closely with our clients to understand their unique needs and preferences, and we strive to deliver signage that exceeds their expectations.

Whether you need a simple banner or a complex illuminated sign, we have the tools and expertise to bring your vision to life. You can check some of our samples on this slide.

Billboard Marketing

We have extensive experience working on various billboard and large-scale form of advertising that market a specific brand or marketing campaign

Our team has worked with many well-known brands to create eye-catching and effective advertisements that grab the attention of passersby. From designing the layout and graphics to selecting the perfect location for maximum exposure, we take care of every aspect of the process. We understand that billboard and large-scale advertising requires a different approach than other forms of marketing, and we have the expertise to create memorable and impactful campaigns. Whether it's a product launch, event promotion, or simply increasing brand awareness, we know how to make your message stand out in a crowded marketplace. Trust us to bring your vision to life and deliver results that exceed your expectations. You can see some of our work samples on this slide.

Branding

Branding

At our design company, we focus on delivering positive and unforgettable brand experiences. We do this by implementing your organization's strategy effectively, and ensuring that your business goals and customer expectations are met.

Our team of experienced designers and strategists work closely with you to understand your organization's values, mission, and objectives. We then use this information to create a unique and compelling brand identity that resonates with your target audience.

We believe that a strong brand is more than just a logo or a catchy tagline. It's about creating a consistent and cohesive message across all touchpoints, from your website and social media to your packaging and advertising. Our goal is to help you build a brand that not only stands out in a crowded marketplace, but also connects with your customers on a deeper level.

V Procore Constructions

ABOUT US

Welcome to V Pro Core Construction, where we provide top-quality construction and project management services.

Our company is dedicated to providing our clients with exceptional service, going above and beyond to ensure that each project we undertake is completed to the highest standards.

[READ MORE](#)

PROCESS

Our Process

Our process is designed to ensure that every project we undertake is completed to the highest standards of quality, safety, and efficiency.

Initial Consultation

We start by meeting with our clients to understand their needs and requirements. Our team will discuss the project's scope, budget, timeline, and any other relevant details.

Design Phase

Once we have a clear understanding of our client's needs, we move on to the design phase. Our team of architects and engineers will develop a detailed plan, taking into account all the relevant factors, such as local regulations, site conditions, and budget constraints.

Pre-Construction Phase

Before we start construction, we conduct a thorough pre-construction phase. This involves preparing the site, obtaining permits and approvals, and finalizing the budget and schedule.

Construction Phase

Our team of skilled craftsmen and construction professionals will then begin the construction phase. We use high-quality materials and the latest construction techniques.

SERVICES

Department of Commerce & Investments

Welcome to The Cayman Islands!

The Cayman Islands is a British Overseas Territory located in the Caribbean. Our main industries include Financial Services, Tourism, Real Estate and Development, the Special Economic Zone and our latest industry Medical Tourism.

The Department of Commerce & Investment (DCI) is central in providing the necessary framework conducive to a successful business environment through our Licensing, Regulatory and Enforcement functions.

DCI provides business licensing services to specified sectors, ensuring compliance of licenced businesses with local commerce legislation and local and international standards. This includes administration and issuance of Trade & Business Licences, Local Company (Control) Licences, Tobacco Permits, Liquor Licences, Public Film Exhibition Premises Licences, and Special Economic Zone Company Licences.

For more information on the economic climate and the business community you can visit the Cayman Islands Chamber of Commerce website at: <https://www.caymanchamber.ky/>

Further details on establishing financial entities and investment vehicles is also available on the website of the Cayman Islands General Registry: <https://www.ciregistry.ky/>

Mobile App Development

We offer applications that are scalable to meet the needs of any business.

Jay Mehta offers unparalleled software development services focused on delivering superior quality solutions while adhering to our core values. Our software development approach is based on two fundamental principles: user-centric interaction design and scalable software architecture. Our extensive experience enables us to provide customized solutions for a wide range of projects, whether it's a startup or a large enterprise.

Our experience and knowledge are our strengths.

iOS App Development

Android App Development

Cross-Platform Development

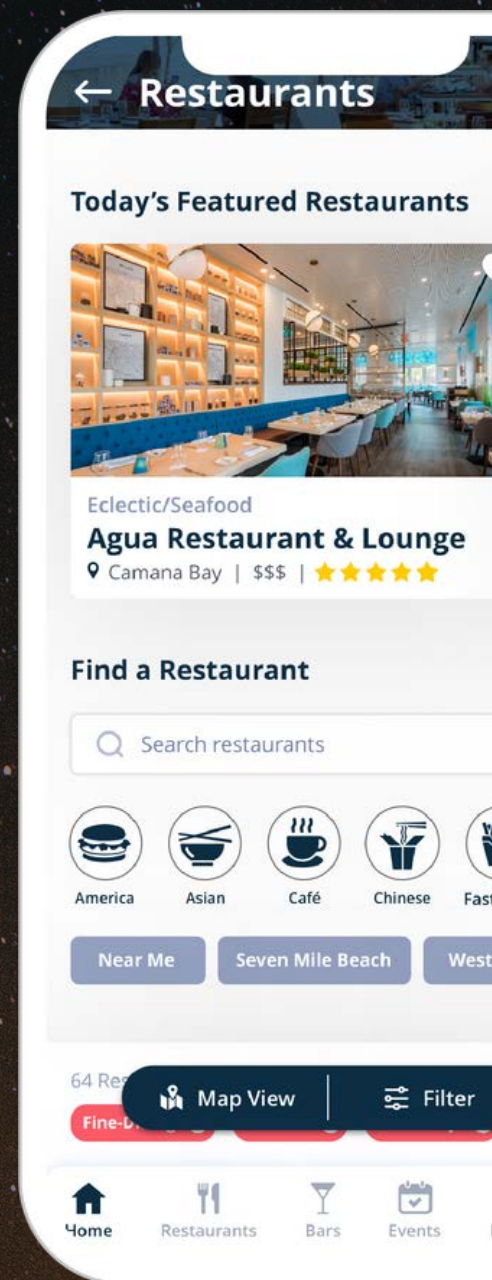

API Integration

UI/UX Design & Development

Data Migration & Consolidation

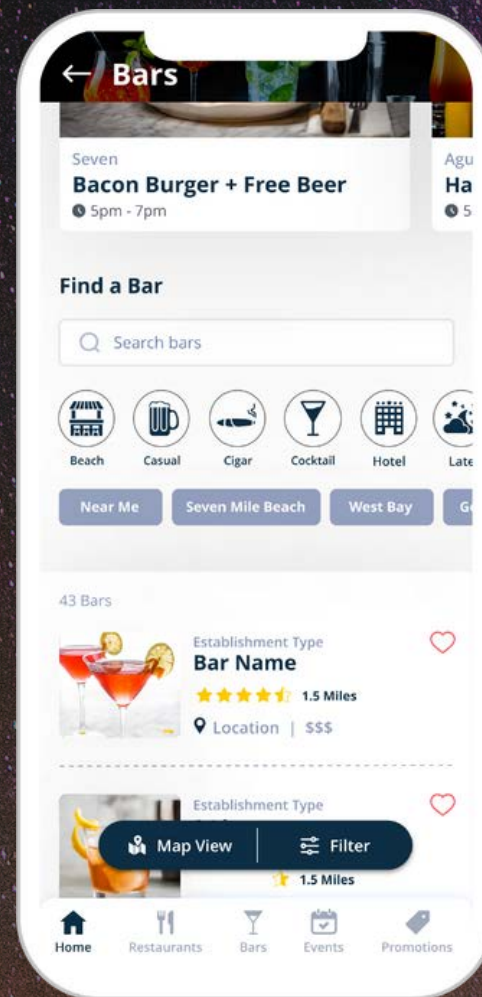

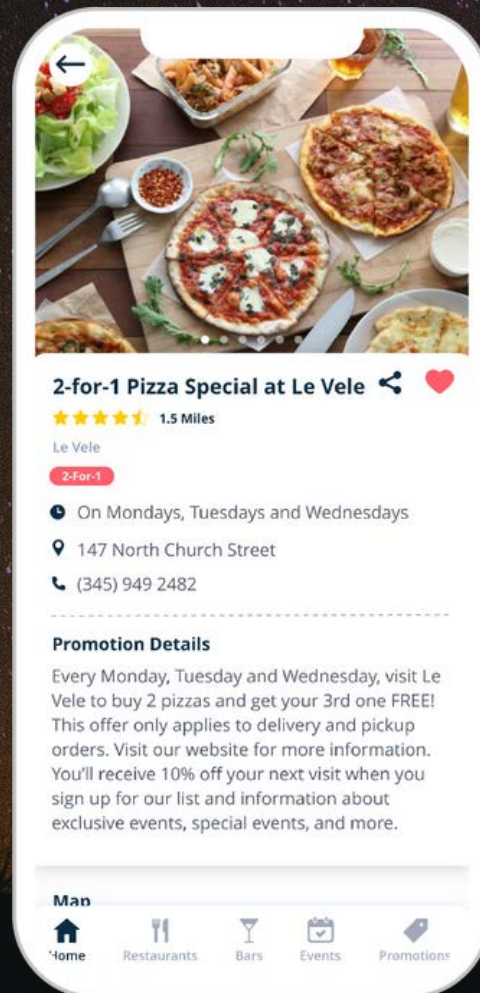

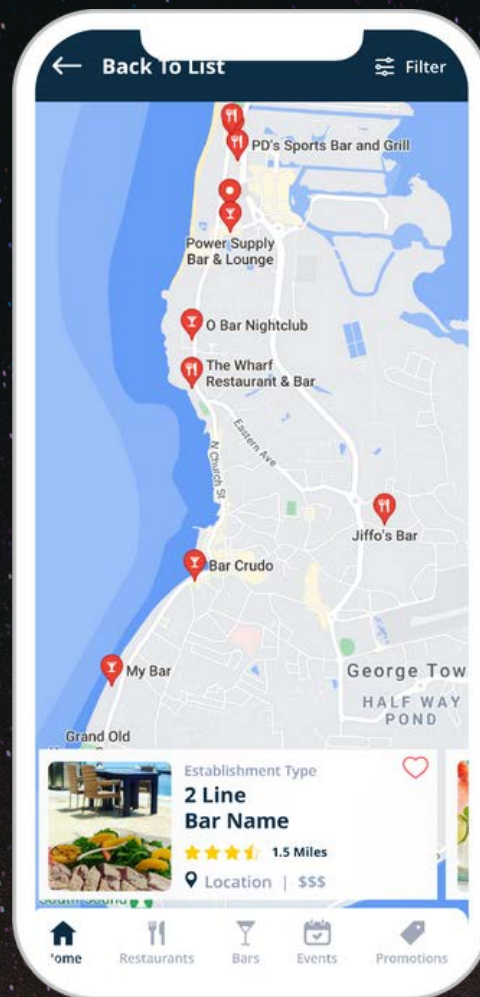

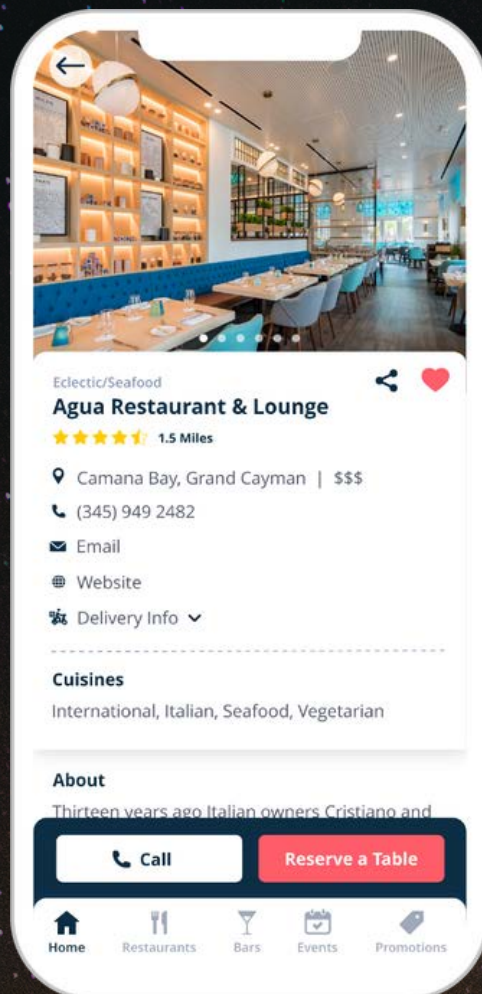

Good Taste

The Good Taste app caters to both residents and visitors of the Cayman Islands, providing easy access to the best restaurants, bars, events, food promotions, and menus in the area. With just a few taps, users can reserve a table at their preferred restaurant. For those indecisive about where to dine, the app allows for searching by cuisine, price, location, and other special categories.

Technology

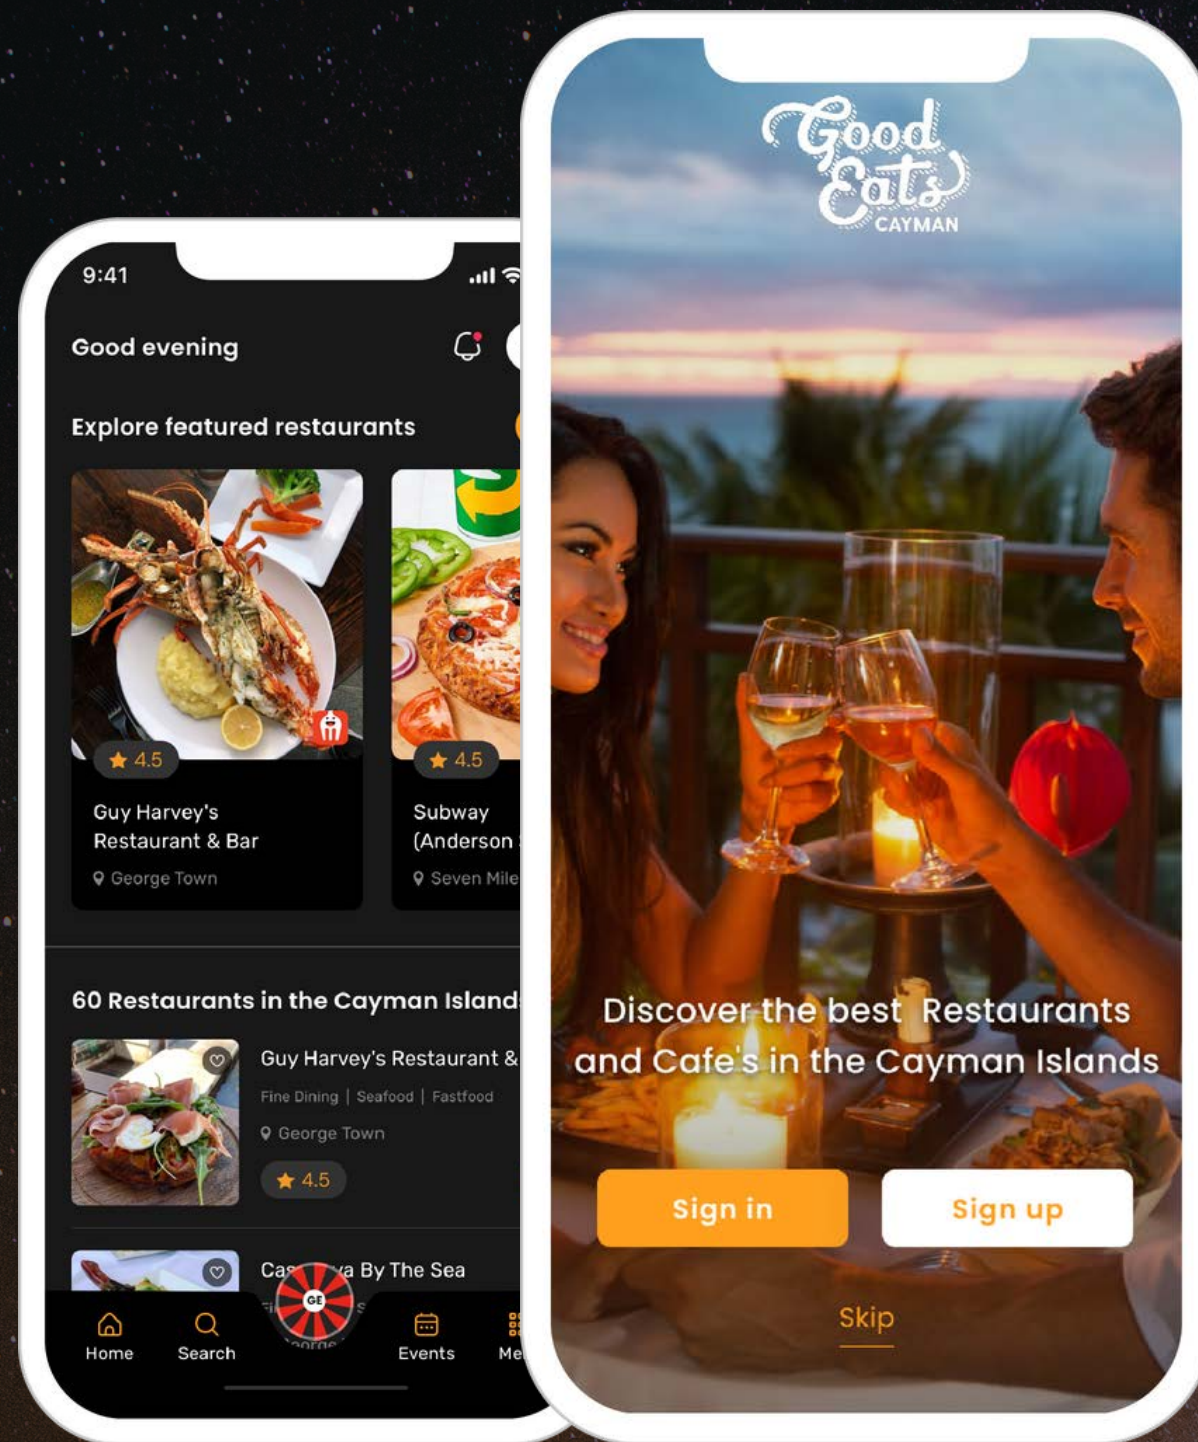

Good Taste

Features

- Curated list of restaurants, bars, events, and promotions
- Multiple filter options to refine search results
- Map representation for easy navigation
- Detailed descriptions of each restaurant, bar, event, and promotion
- Booking functionality for tables and events
- Real-time notifications based on user preferences
- Links to other relevant and useful information
- Real-time directions to listed establishments
- Option to add restaurants, bars, events, and promotions to the Favorites list
- Ability to share listed establishments with friends
- History feature for quick access to previously viewed items.

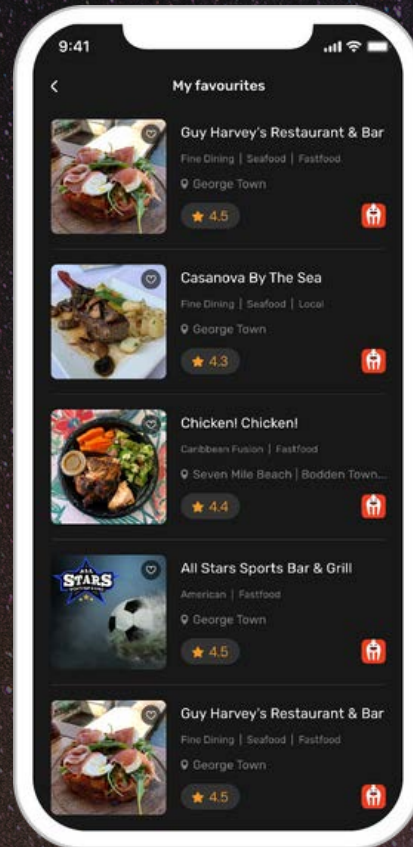

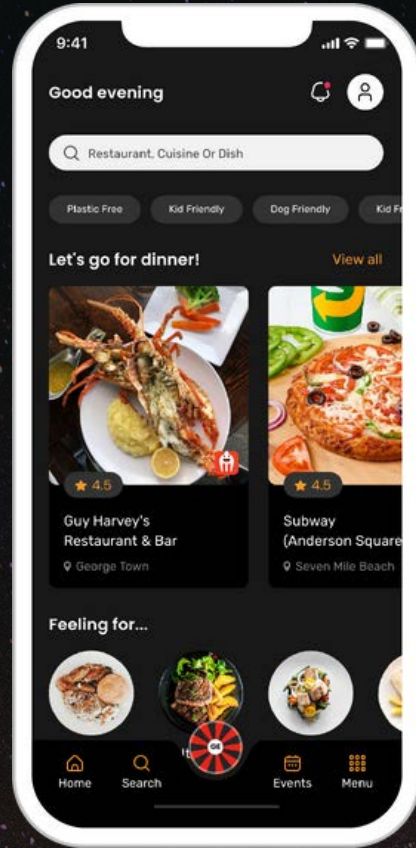

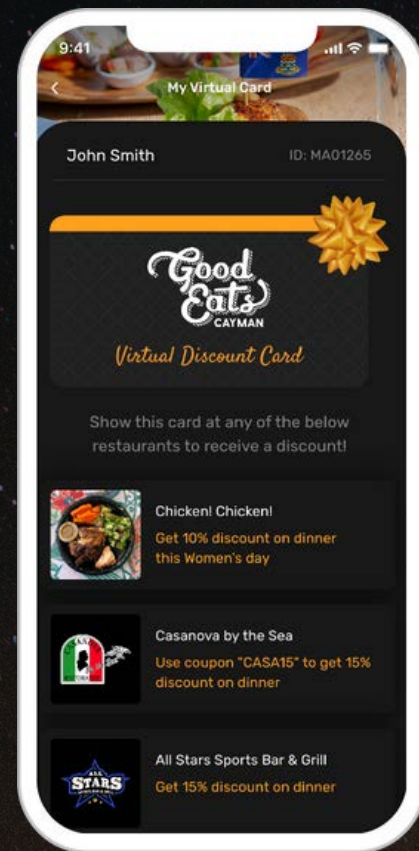

Good Eats

The Good Eats App provides a comprehensive directory of food-related activities in the Cayman Islands. It offers a user-friendly search engine that allows users to filter their search by specific parameters such as food type, restaurant features, and dietary restrictions. The app caters to all food preferences, from fast food to fine dining.

Technology

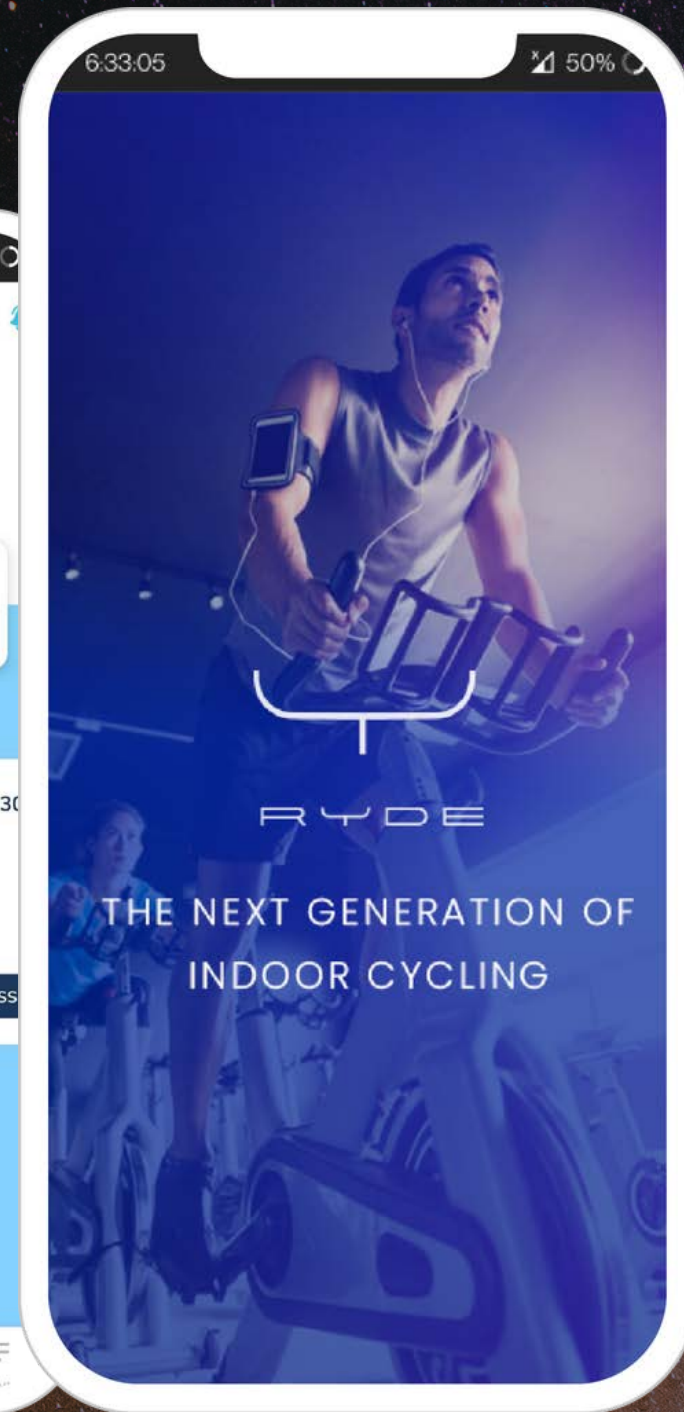

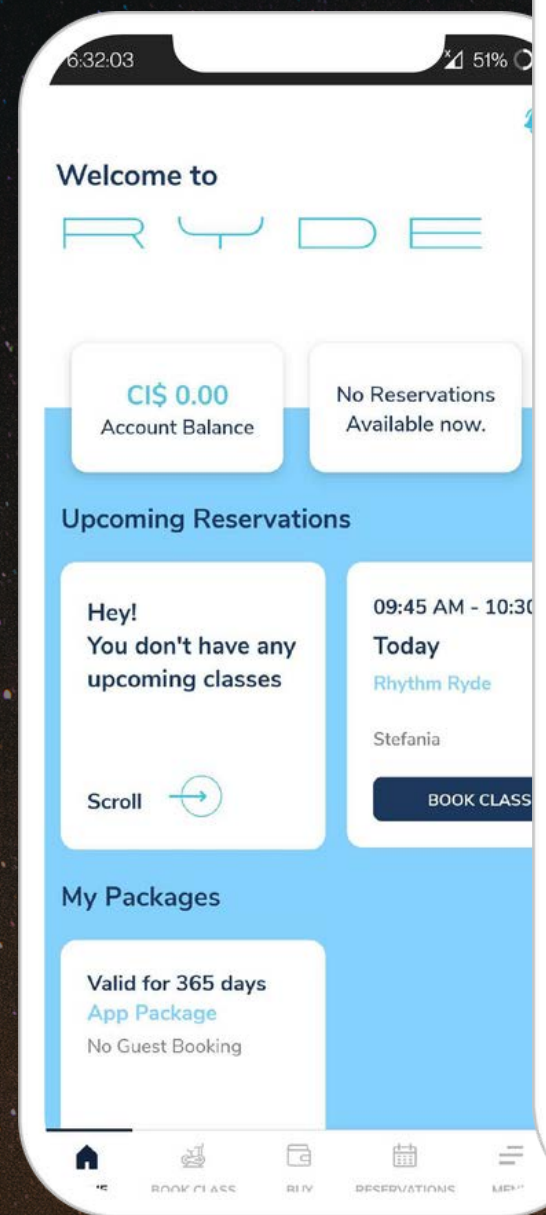

Good Eats

Features

- Creation of a meticulously curated list of restaurants
- Provision of advanced filtering and search features for users
- Implementation of a Food Roulette feature
- Integration of food delivery services
- Inclusion of a restaurant search and reservation system
- Promotion of restaurants through various marketing channels
- Incorporation of a rating and review system for restaurants
- Implementation of website deep linking to enhance the user experience
- Provision of easy sharing options across multiple platforms

Ryde

The Ryde Cayman Limited app serves as a platform for individuals to discover and enroll in upcoming events and classes. Users can easily register as a member, browse classes, book, check-in, and even cancel if necessary. Additionally, the app provides a means to purchase packages online, streamlining the transaction process. By creating an account, registered users can manage their profile, save their credit card information securely, and pay for classes with ease via wallet or credit card.

Technology

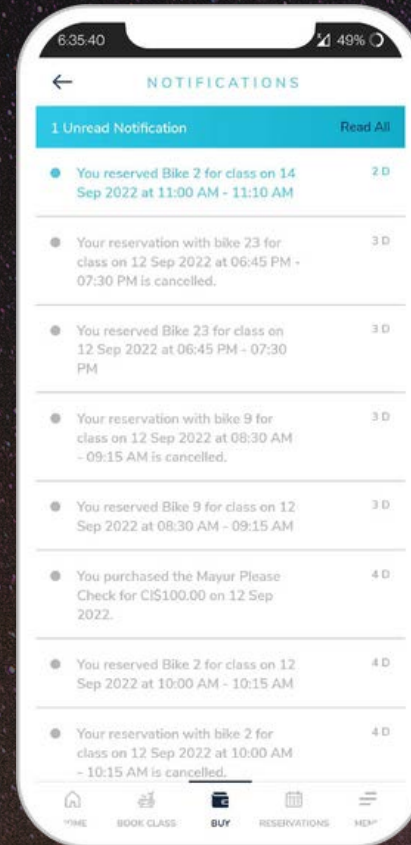

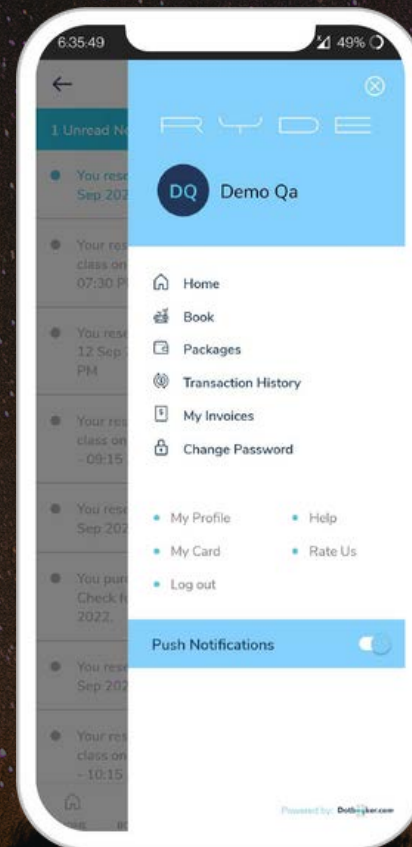

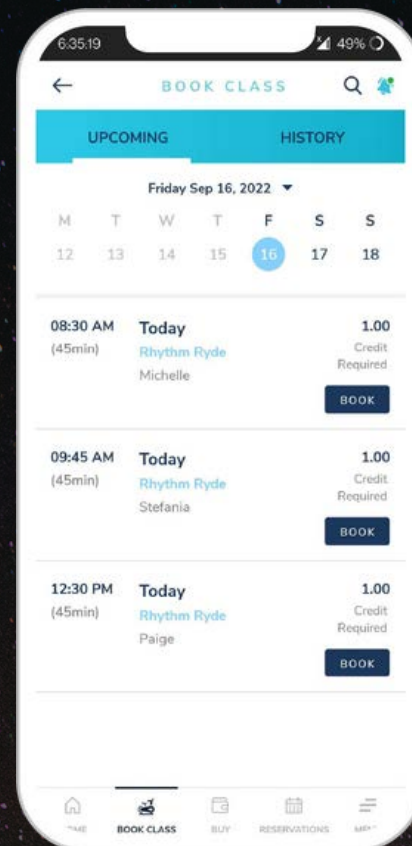

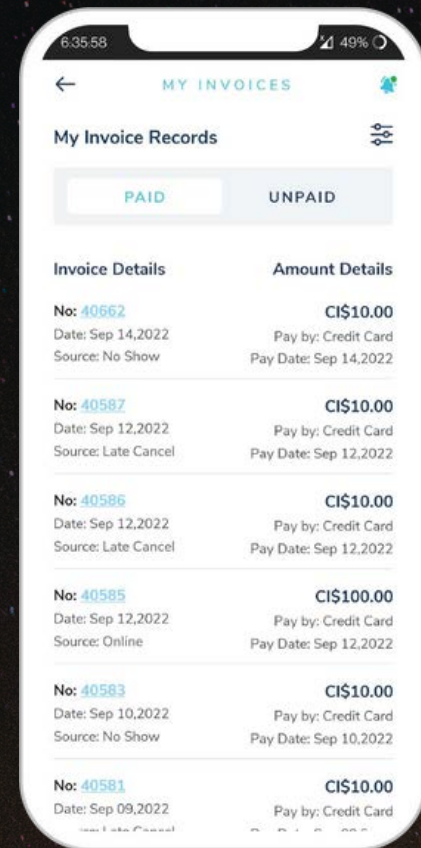

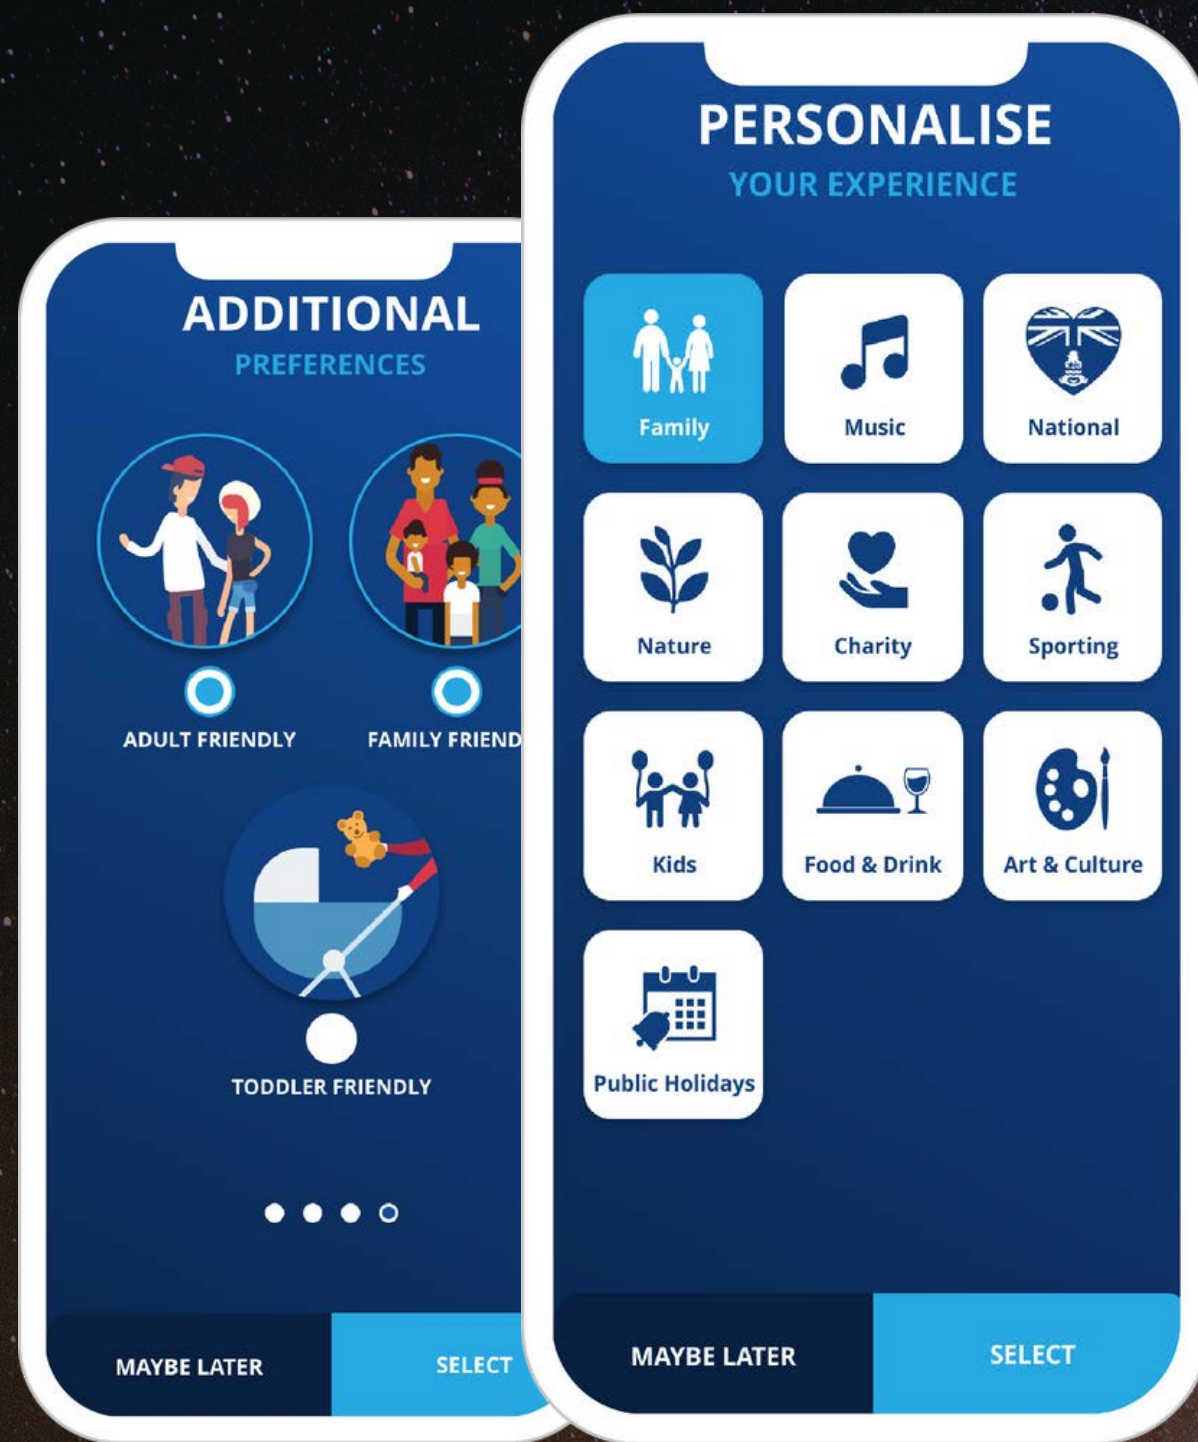

Ryde

Features

- Easy member registration
- Access to purchase and view packages
- Visibility to upcoming classes and events
- Simple event registration
- Waitlist registration and management
- Ability to book a class for yourself or guest
- Geo-tagging and geo-fencing alerts
- Push notifications to keep you updated
- Check-in feature that can be manual or automatic
- Access to your booking and invoice history
- Wallet functionality with transaction history
- Option to redeem and purchase gift cards
- Ability to save payment profiles for future use

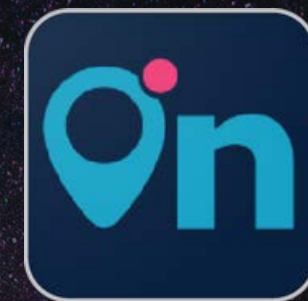

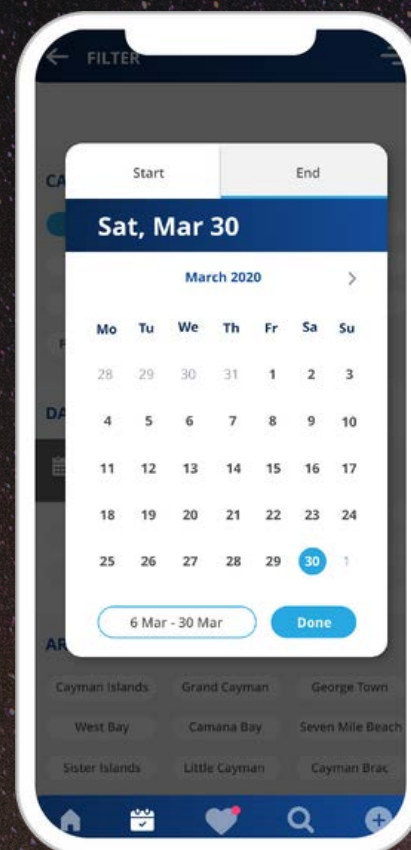

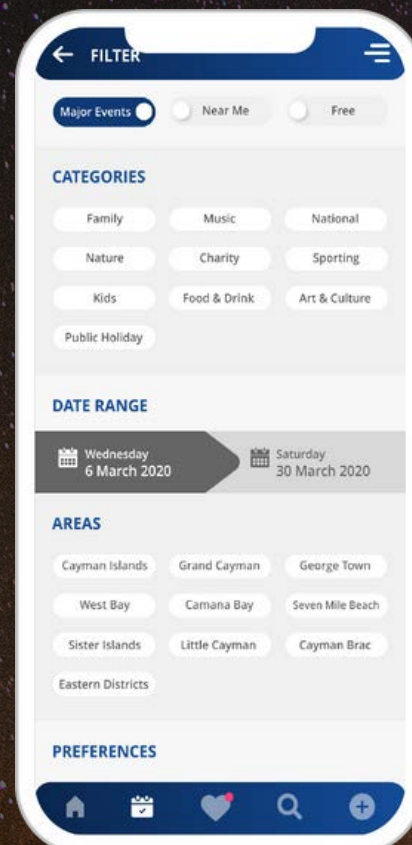

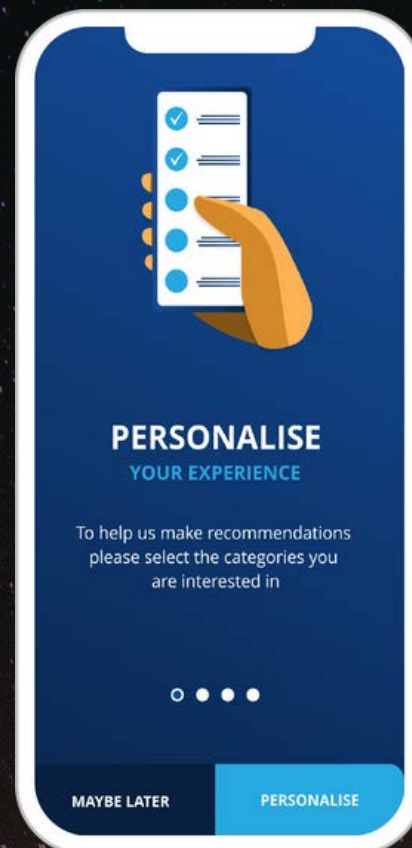

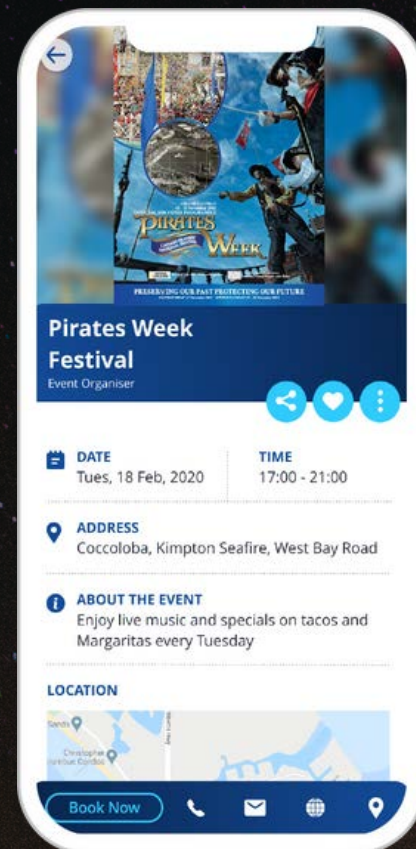

Whats On

Get the latest and most comprehensive information on events taking place in the Cayman Islands with What's On. This is the go-to source for everything from music and entertainment, to food and drink, charity events, sports, community, arts and culture, shopping, and much more!

Technology

Whats On

Features

- Personalized event recommendations
- Filtering options for categories, date, area and preferences
- Real-time notifications based on your interests
- Links to other useful information
- Quick and easy directions to events
- Ability to add events to your local calendar and set reminders
- Option to add events to your list of favorites
- Share events with your friends
- View history to quickly access previously viewed events
- Fast and free format search

Software Development

Our applications come in all sizes to meet your needs.

Jay Mehta's team combines IT innovations and adoption to develop digital roadmaps and provide consistent support and services. Their business methodology and structured solution building approach maintain global standards and focus on innovation to accelerate client growth. Their team across geographies delivers exceptional services to organizations across industries at a competitive rate.

Our team takes great pride in creating reliable and sturdy software.

Testimonials

Client Testimonials

Mr. Jay Mehta is an extraordinary digital expert and pioneer. His comprehensive digital marketing approach is well-known. He managed research, implementation, and post-project analysis. During our work together, I witnessed his ability to compile marketing data and implement strategic marketing initiatives.

— Charles Grover, Publishing Director
of Acorn Media

Jay's creative vision and digital marketing mastery were evident in our brand marketing.

— Ryan Rajkumar, Director of the Department
of Commerce & Investment (DCI)

Jay Mehta's digital marketing and sales expertise are valuable for Cayman Islands and Caribbean businesses. He had the knowledge and experience to address our digital marketing needs and identify unmet needs.

— Susan Pothanikat, Product
Manager of Ovvi LLC

Jay's creative vision and digital marketing mastery were evident in our brand marketing.

— Susan Pothanikat, Product
Manager of Ovvi LLC

Mr. Jay Mehta exceeded our expectations with his forward-thinking strategies to execute digital marketing plans. The Consulate has experienced greater efficiency in communicating with Mr. Jay Mehta's groundbreaking work.

— Elaine Harris, Honorary Jamaican
Government, Representative

Frequently Asked Questions

WHAT ARE YOUR TURNAROUND TIMES?

Our turnaround times vary depending on the service. Our standard process typically includes Research, Design, Development, Testing, Launch, Marketing, and Analytics. However, this can be tailored based on your specific needs and deliverables. We believe in transparency and will provide accurate timeframes once we fully understand the scope of work.

DO YOU EXPERTISE IN OUR INDUSTRIES?

While we don't claim to be industry-specific experts, our proficiency lies in branding, digital marketing, designing, and development. We apply our expertise to any industry, conducting thorough research and implementing tailored digital strategies. For E.g. we possess the expertise to drive success for fintech companies through diverse digital strategies. We dedicate time to researching your industry and competitors, then apply these insights to implement effective solutions, continuously refining our approach.

ARE THERE REALLY NO CONTRACTS?

Correct, we don't bind clients with contracts. We maintain a high retention rate and believe in the quality of our services. For marketing projects, we recommend a three-month commitment to effectively gather data, analyze trends, and optimize strategies, ensuring the success and effectiveness of the campaign.

WHAT DOES COMMUNICATION LOOK LIKE?

Communication frequency varies by service. Typically, we update clients about three times a week, though some projects may require daily interactions. Our aim is to keep you informed and work diligently towards your success.

HOW DOES STAFF AUGMENTATION WORK

You can conduct unlimited interviews to select the developer of your choice from our pool. Once you approve, our remote developers will commence work as your dedicated resources from our advanced development center. You retain full control over resource management, while we handle developer retention, administrative support, and infrastructure. To safeguard your idea and project, we enter into a Non-Disclosure Agreement (NDA) to ensure their security with us.

WILL YOU WORK IN MY TIMEZONE?

Certainly, you have the option to engage dedicated remote developers from us, tailored to your preferred time zone (EST/PST/CST/MST), meeting your deadlines and milestones. For further information, contact us at sales@jaymehta.co or call us at 512-621-8822.

WHO USES STAFF AUGMENTATION?

This employment model is widely embraced by businesses requiring temporary personnel to fulfill short-term roles in their organization. Augmented teams are particularly sought after for custom software development, addressing the prevalent global shortage of IT talent.

WHAT IS THE DIFFERENCE BETWEEN STAFF AUGMENTATION & OUTSOURCING

Through augmented teams, you gain access to additional IT resources while maintaining direct control over your team. This means you retain full control and mitigate the risks associated with potential negative outcomes. In the outsourcing model, you allocate outsourced developers for a specific outcome but share risks with the outsourcing vendor. Additionally, outsourcing typically involves a lower level of control.

WHY ARE YOUR COSTS SO LOW?

Our efficiency and well-structured environment allow us to offer high-quality services at competitive prices. We focus on effective communication and streamlined processes to ensure optimal outcomes for our clients.

HOW DO WE STAY IN TOUCH?

We are available 24/7 via email or chat, and by phone from 9 am to 5 pm EST, Monday to Friday. For emergencies, you'll have direct access to a project manager through phone, SMS, or messaging.

DO YOU HAVE A REFERRAL PROGRAM?

Yes, we have a referral program tailored to different services. For more details, please contact referrals@jaymehta.co to discuss the specific services you're interested in promoting.

WHAT'S YOUR ONBOARDING PROCESS?

Upon finalizing the agreement and payment, a project manager will be assigned to you. They will conduct an onboarding meeting to understand your goals and outline how we can assist in achieving them. Your billing cycle starts with the commencement of the project.

DO YOU PROVIDE WHITE LABEL SERVICES?

Yes, we offer white label services, allowing you to present our work under your brand name. This is a great option for businesses and agencies who want to expand their services without investing in additional resources. With our white label services, you can offer your clients high-quality work without having to worry about the production process.

THANK YOU

LETS TALK ABOUT YOUR NEXT PROJECT

Thanks for your time and we do look forward to speaking with you soon. Please feel free to call or email us if you have any questions or if you need to discuss your project requirements with us.
